Dear Ms. Priddy:

This is in response to your letter dated August 18, 1992, notifying the Department of the Interior of the proposed deletion of the Yakima Pesticide Lab from the National Priorities List (NPL). Based on the information provided, it appears that remedial actions undertaken by the Environmental Protection Agency under the Resource Conservation Recovery Act, have reduced contamination at the site to a level acceptable to the Department. Consequently, the Department of the Interior has no objections to the deletion of this site from the NPL.

Sincerely,

Charles S. Polityka
Regional Environmental Officer
